Standardization Case Studies

ACCOMPANYING QUESTION AND ANSWER WORKSHEET

As appropriate, please suggest recommended study, test or quiz questions / answers to accompany the case study proposed above.

Proposed Question	What does I/O stand for?
Proposed Answer	Input/Output

Proposed Question	Why did vendors in the 1970's develop multiple controllers for the same disk drive?
Proposed Answer	Because each vendor had many different disk drive interfaces to service entry-level, mid-range, and mainframe products that all used different 'motherboards' or 'backplanes'. The time to develop these controllers slowed the introduction of new products.

Proposed Question	What is standards development environment X3 now known as?
Proposed Answer	InterNational Committee for Information Technology Standards (INCITS), www.incits.org

Proposed Question	What does SCSI stand for?
Proposed Answer	Small Computer System Interface

Please return completed Project Worksheet to training@ansi.org.
